OpSail CONNECTICUT, INC. is a non-profit organization whose core mission is to produce an annual festival that provides direct entry to and education about Connecticut’s rich maritime history. The festival serves to unite our shores by allowing visitors access to those who work on, under or with the sea in naval, marine and other maritime industries. We aim to celebrate Connecticut’s maritime heritage by emphasizing the State’s diverse population and showing the ways the seas have brought people from all over the world to Connecticut. Each year the Festival provides leadership opportunities for students.
